**Date:** April 23, 2026

**To Whom It May Concern**

It is a privilege to write this letter of recommendation for **Soham Mukherjee**, who completed his internship at Springer Capital Investments LLC from January 6, 2026 to April 6, 2026, serving as a **DevOps Intern**.

During this period, he demonstrated strong analytical thinking, professionalism, and a structured approach to problem-solving. He contributed to software engineering workflows, including implementing data pipeline configurations, designing and validating transformation logic, and ensuring alignment across query design, schema definitions, and data quality tests. He worked on developing Silver layer transformations and contributed to the design of the Gold layer, focusing on data models optimized for reporting and dashboard consumption.

He showed strong understanding of software engineering principles, data workflows, and clean coding practices. He consistently maintained accuracy, discipline, and reliability in his work. His ability to quickly learn new tools and adapt to evolving requirements made him a valuable contributor to the team.

He is a motivated and dependable individual, and I am confident he will continue to perform well in his academic and professional journey.

I strongly recommend him for roles in software engineering, backend development, data engineering, and systems design.

For any further information, please feel free to reach out.

**Yours sincerely,**

**Isaac Andrew Rosenthal**  
Managing Partner  
**Springer Capital Investments LLC**
